

## PRESS RELEASE

### OMI Group – Platinum Sponsor for EMART Energy 2015

Lisbon, 22.July.2015

OMI Group is proud to announce that they will be Platinum Sponsor for EMART Energy 2015 on next 25<sup>th</sup> and 26<sup>th</sup> of November in Barcelona, Spain.

EMART Energy is the main European platform for energy trading, including a high-level conference, a two-day exhibition and a wide range of networking events. Thanks to many years of experience and continuous growth, EMART Energy has become the leading conference and exhibition for the entire European energy and gas industry.

OMI Group is constituted by OMIP, the Iberian Energy Derivatives Exchange; OMIClear, the Iberian Energy Clearing House; and OMIE, the spot and intraday Iberian Energy Market. Together they form the leading holding in Energy trading and clearing in MIBEL harbouring the whole range of activities starting from the spot market, the derivatives market and the clearing of trades.

“We are very excited about the OMI’s involvement in this year’s EMART. We believe this represents an excellent opportunity for the OMI Group to support energy trading and to help develop the energy industry. With our presence at EMART we will promote the growth of the Iberian Energy Market, encourage all companies to come to the market and work together on the progress of MIBEL” says Ricardo Nunes, Head of Marketing and Business Development in OMIP and OMIClear.

Nel Jonk, Project Manager of Synergy says: “We are extremely proud that OMI has chosen to host the annual Energy Traders’ Party taking place after the first day of EMART. OMI plays a crucial role in the Iberian markets and is therefore the perfect partner for this exclusive gathering of Europe’s trading community. We’ll both be looking to a Traders’ Party to remember!”.

#### About OMI Group

OMI Group is constituted by OMIP, the Iberian Energy Derivatives Exchange; OMIClear, the Iberian Energy Clearing House; and OMIE, the spot and intraday Iberian Energy Market. Together they form the leading holding in Energy trading and clearing in MIBEL harbouring the whole range of activities starting from the spot market, the derivatives market and the clearing of trades.
